One of the hottest topics in the life insurance industry today is **Premium Financing** - a strategy which allows affluent individuals (who would prefer not to liquidate other assets) to borrow money from a third party lender to pay the premiums on their life insurance policy.

Benefits of a **Premium Financing Strategy** include:

- The Funding of a Life Insurance need at a low cost, without impacting current cash flow
- The ability to avoid liquidating taxable investments that may be earning a higher rate of return than the loan interest cost
- A way for your client to keep their money working for them in their investments of choice

Webinar highlights include:

- Understanding the Different Types of Premium Financing
- Key Reasons to Finance
- Case Design
- Exit Strategies
